## Pray for New NCI Mission in Chile

This month John and Erin Fonner, NCI staffers, will be leaving Houston for Valdivia, Chile! They will be teaching English to college students and encouraging a church planting movement among them. The college students are hungry to find purpose in life, and the Fonnors will train student leaders to start authentic faith communities to reach their peers. They will also be identifying Chilean church planters and churches and offering NCI's resources to help equip them to reach all of Valdivia.

Please pray for them as they finish their final preparations and transition their lives to serve Chile!
